

PROJECT PEC

**Dear Parents,
Greetings!**

kindergarten / Pre-School is an essential and useful school for the growth and learning of all children.

But why we need to enroll our boys and girls in kindergarten?

- **TO LEARN THE ITALIAN LANGUAGE**, boys and girls from different cultures & countries can begin to learn the Italian language, decreasing their difficulties before starting Primary School. Learning the Italian language will become an essential means of making the transition to compulsory education easier and more exciting.
- **TO ACQUIRE SKILLS FOR READING AND WRITING**, through play and different kind of learning activities, children can prepare in advance for primary school.
- **To create a network of friendships**, children can have the opportunity to establish friendly relationships with their companions. This will allow them to feel part of a group and facilitate the transition to Primary School.
- **FOR INTERNALIZATION RULES, EDUCATIONAL STYLES AND STRUCTURES**, boys and girls will adopt a series of norms, rules and behavior structures useful for a good inclusion in the future Primary School.
- **TO GET TO KNOW AND COMPARE**, children from different cultures will be able to meet, play, socialize with a context of exchange and integration. The school will however become a meeting place in which boys and girls will certainly be able to maintain their cultural specificities, but they will try to enter as much as possible in relation to others thus adopting the feelings of respect for others.

TO UNDERSTAND YOUR SKILLS AND TO FEEL GOOD about yourself and others

Kindergarten hours are from _____ hours to _____

For attendance you have to pay a tuition fee of euro _____.

If you have financial difficulties you can contact your municipality for help.

The nearest school is _____ in _____
